

## Upgrading leaders from 20<sup>th</sup> Century to 21<sup>st</sup> Century Paradigm

## DETAILED CURRICULUM

### Module 1 - Introduction to the Paradigm Shift.

- We are at a choice point: Devolution or Evolution.
- Why the Future (and all of us) needs to be (more) Feminine to restore Wholeness
- The overall paradigm shift: from Ego/mind as OS to Essence/Heart as OS – expanding your potential.

How does that look for individuals?  
For Organizations?

Leaders: from career to Calling  
Organization From pyramid to organism.

Everyone:  
Find your Purpose so you can be the perfect piece for the larger puzzle.  
Be aware of difference between small self and Large self  
New Mindset – New Practises

The shift from the former, outdated yang-dominated paradigm to the timely yin-oriented paradigm as a catalyst to the evolutionary destination of WHOLENESS consists of 7 leadership (R)Evolution. These can be organized into a GPS for the new leadership, organized as a diamond.

The diamond is birthed out of extreme pressure.  
Welcome crisis! The program polishes the inner diamond so everyone can shine and contribute to a bright future – for All.

## Module 9

### Summary, Completion & Graduation

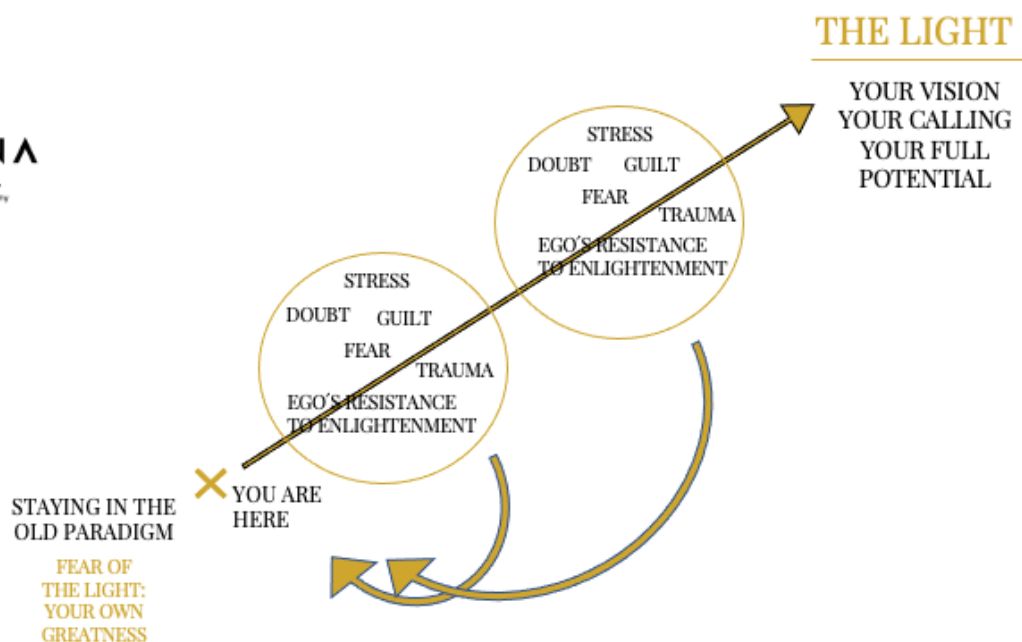

**ILLUMINARY LEADERSHIP UPGRADE**  
by Kirsten Stendevad

## Why help is required:

- 1) We all have blind spots
- 2) Without support most lose focus in an overdistracted, busy daily life
- 3) Without peers the process is too slow and tedious for most
- 4) When we encounter what stops us, most give up if on our own
- 5) Almost no one has enough of the new tools required for the transformation
- 6) It's difficult to keep up with new ideas, remedies and practises
- 7) Many of the transformations involve subconscious patterns.
